INTRODUCTION

The records listed on the following pages were copied from hand-written indexes received from the Hamilton County Courthouse. The volumes are dated 1817-1845 but there are some records dating as early as 1808. We've copied the records exactly as they were written and it's obvious that many are spelled phonetically.

Since the bride and groom are recorded separately, we've also created a cross-index so patrons who do not know the name of their ancestor's spouse can compare volume number, page number and date to find a match. It appears that several marriages were recorded on the same page.

At the present time, the University houses only the Marriage Indexes. The microfilmed records are held at the Hamilton County Courthouse. Copies of these records can be obtained by writing to the Probate Court, Room 549, Court & Main Streets, Cincinnati, OH 45202 and providing them with the information shown in this index.

The University is attempting to acquire microfilm copies of these records but, at this point, it is unclear when this will occur.
